ANANTH HARIDAS

FinCrime & Data Analytics

Bengaluru, India | +91 9187084093 | an47th.pi77ai@gmail.com | an47th.github.io/Ananth_Pillai

PROFILE SUMMARY

FinTech operations professional moving into FinCrime and data analysis. AML & KYC certified (IIBF, Sep 2026), with hands-on projects in transaction monitoring, KYC risk scoring, and sanctions and CDD, plus a business analysis case with ROI modeling. Experienced in owning requirements across stakeholders and validating AI outputs.

ACHIEVEMENTS

- Cut employee reimbursement turnaround time (TAT) from 30 days to 7, **a 75% reduction in TAT.**
- **Reduced AI agent response time by 25%** per case by adding a conversational summary feature coordinating with engineering and data teams.

SKILLS

- **FinCrime and Compliance:** AML, KYC and CDD, EDD, Sanctions Screening, Transaction Monitoring, Risk-Based Customer Profiling, SAR and CTR Drafting (synthetic cases), FATF, PMLA and RBI KYC Master Direction, Case Investigation and Documentation
- **SQL and Data:** SQL (HackerRank, Basic), MySQL, Rule-Based Detection Queries, ETL, Data Mapping and Reconciliation, Fuzzy Name Matching
- **Power BI and Visualization:** Power BI, Tableau, Power Query, Data Modelling, Data Visualisation, Excel (dashboards, pivots)
- **Delivery:** Business Analysis, Requirements Gathering, ROI Modeling, Stakeholder Management, Escalation Handling, AI Output Validation

PROJECTS

AML Transaction Monitoring, KYC and Sanctions Screening | SQL, Excel, Tableau, Power BI

- Built a six-rule SQL detection engine and investigation framework that took 26 flagged accounts through structured case review, with a Tableau dashboard of alert trends and true and false positives.
- Built an eight-rule monitoring workflow (structuring, velocity, dormant revival, PEP, high-risk jurisdiction, and more) mapped to PMLA, FATF, and RBI KYC, generating 159 alerts with recommended actions (STR, EDD, KYC refresh).
- Scored 50 customers on a six-factor KYC risk model and screened them using exact, alias, and fuzzy name matching, surfacing 2 exact matches and 1 possible match.

Market-Entry Business Case: NeuroLinkX | Business Analysis, ROI Modeling, GTM Planning

- Five-task business analysis assignment: scored five customer profiles on LinkedIn, Tracxn, Crunchbase, and Deloitte data, built a three-competitor matrix, modeled Year-1 ROI (4.5x, ₹5.86L net benefit, 12–14 week payback), and delivered a 90-day revenue plan and CEO memo.

PROFESSIONAL EXPERIENCE

FinanceOps | Operations Analyst | Fixed-term contract | Remote, India — May 2026 – Aug 2026

- Validated AI outputs for accuracy and predictions, flagged edge cases, and gave regular feedback to engineering teams to enhance the product and introduce new features.
- Reduced AI agent response time by 25% per case by adding a conversational summary feature, coordinating with the backend and engineering teams.
- Resolved international customer tickets and escalations in Helpscout within SLA in an AI-powered FinTech debt recovery model.

Invensis Technologies | Senior Executive | Project-based role | Bengaluru, India — Mar 2025 – Sep 2025

- Owned requirement gathering, escalation, and resolution with Operations, Marketing, Sales, and stakeholders in France and the UK, cutting reimbursement turnaround from 30 days to 7, a 75% reduction in TAT.
- Redesigned the reimbursement workflow with a standard format and automated validation (20–25 monthly reimbursements).
- Built Excel dashboards on collection rates, dues, and account manager performance, flagging irregular or overdue accounts early; drove 30%+ better collections QoQ.
- Led client onboarding documentation and system data structuring, producing clean, traceable records.

BGK Advisory (deployed to Wipro) | Process Executive | Bengaluru, India — Sep 2022 – Jul 2023

- Improved the data quality baseline for budgeting and management reporting by clearing unreconciled items.
- Managed high-volume bank reconciliations across INR and foreign-currency accounts and resolved variances.

Areej Securetech LLC | Operations Executive | Dubai, UAE — Dec 2020 – Jan 2022

- Built cash flow, expense, and revenue MIS reports and margin analysis, and supported business development.

CERTIFICATIONS AND EDUCATION

- AML & KYC (IIBF, Sep 2026) | SQL (Basic), HackerRank

B.Com, Business & Finance | MG University, Kerala
